PRODUCT BRIEF

Arlabs SiteTrack

A mobile-first field-operations product for telecoms projects — house-by-house fiber installation, testing, commissioning, splicing and client-ready reporting, built for real Malaysian field conditions.

ARLABS

FIELD-OPS PRODUCT

What it delivers

- ✓ Mobile-first PWA — no install, works on any phone
- ✓ Photo evidence on every entry, offline-ready capture
- ✓ Installation, testing, splicing and reporting in one product
- ✓ Approval-gated progress and client-ready PDF reports

Who it is for

Organisations whose work is recorded by many people across offices, sites and the field, and must be verified, reported and audited.

> IN PRACTICE
>
> A subcontractor logs a completed house in one screen with photos; a supervisor approves it; and the approved work instantly updates live project progress and the client report.

At a glance

Modules	12, individually enablable
Channels	Web dashboard · iOS · Android
Offline	Field capture syncs when signal returns
Access control	Role-based, enforced at database level
Audit	Every action logged with user and time
Languages	English · Bahasa Malaysia
Timezone	MYT, Malaysian holiday rules
Exports	PDF · Excel · REST API

Built with

PWA / mobile · Offline-ready · EN / BM · PDF reporting

MODULES

12 modules, one connected system

Every module shares the same identity, access, notification and audit layer. Start with the modules you need and enable more over time.

- **Digital Field Data Collection**
  Capture work from the field, even offline.
- **Homepass Installation Tracking**
  Track every house, block by block.
- **Testing & Commissioning**
  Record test evidence per house.
- **Splicing Management**
  Full core-by-core splice traceability.
- **Approvals & Quality Control**
  Only verified work counts.
- **Real-Time Dashboard**
  Live progress at a glance.
- **Client-Ready Reporting**
  Reports your client can sign off.
- **Digital Signing**
  Sign-off, built in.
- **Team Performance**
  See who is delivering.
- **Activity Log & Audit Trail**
  Every action, on record.
- **Built for Malaysian Field Teams**
  Designed for the people using it.
- **Integrations**
  Connected to the rest of your operation.

How we work with you

Build & run
Hosted service — we deploy, configure, train and support.

Custom build
Extend or add modules to your scope on a fixed plan.

Managed support
SLA-backed maintenance and enhancements.
