SOLUTION BRIEF · BY INDUSTRY

Arlabs for Healthcare

Workforce, assets and operations for healthcare providers.

The challenge

Providers manage shift-based workforces, equipment and compliance where accuracy and records matter.

How Arlabs helps

- ✓ Run shift attendance, leave and overtime accurately
- ✓ Track equipment maintenance and service history
- ✓ Keep audit trails for compliance

In practice

> EXAMPLE
>
> A facility runs verified shift attendance and tracks equipment maintenance, with full records for audits.

Why it works

Work is captured where it happens, verified before it counts, and reported from one trusted record. Every product runs on the same stack, so modules can be combined and extended as the operation grows — without a rip-and-replace later.

RECOMMENDED PRODUCTS

Products that fit

Recommended starting points for healthcare — each is a complete product on its own and integrates with the others.

ATTENDANCE & HR PRODUCT

Arlabs Hadir

A mobile attendance, leave, overtime and payroll product for Malaysian teams — GPS clock-in with anti-spoofing, leave and claims from the phone, and automatic, rule-aware...

8 modules

FLAGSHIP PRODUCT

Arlabs CRM & Operations

A complete operations system that unifies maintenance, field inspection, asset management, public complaints and multi-stage claims into one role-based system — from mobi...

14 modules

Getting started

1 · Scope

A short discovery session to map your workflows, roles and sites to modules.

2 · Pilot

One workflow with one team, proving verified daily data and reporting.

3 · Roll out

Train users, migrate data and expand module by module with support.

Product whitepapers and briefs for each recommended product are available in the Arlabs resource centre.
